**Programme Outcomes and Course Outcomes  
(2018-2019)**

## U.G. PROGRAM OUTCOME

### PROGRAMME - BACHELOR OF ARTS (B.A.)

Student seeking admission for B.A. programme is expected to imbue with following quality which help them in their future life to achieve the expected goals.

- a. Realization of human values.
- b. Sense of social service.
- c. Responsible and dutiful citizen.
- d. Critical temper
- e. Creative ability.

### Course Outcomes - B.A. KANNADA

- a. Creating an interest in literature.
- b. Availing the job opportunities in translation, transformation and media.
- c. Developing language.
- d. Increasing the critical attitude about literary studies.
- e. Imbuing the literary research attitude.

### Course Outcomes - B.A. HINDI

- a. Developing reading, writing, speaking and listening skills.
- b. Availing the job opportunities in translation.
- c. Increasing the critical attitude about literary writing.
- d. Creating an interest in literature.
- e. Imbuing the literary research attitude.

#### Course Outcomes - B.A. ENGLISH

- a. A student, who has taken admission into this program of B.A with English as specific subject of study, is expected to target on following outcomes. a. Basic knowledge of English as Language.
- b. Major knowledge of English as Literature.
- c. Basic knowledge of English Grammar.
- d. Critical study of English Literary studies.
- e. Relation between pleasure of literature and real life.

#### Course Outcomes - B.A. URDU

- a. Creating an interest in literature.
- b. Availing the job opportunities in translation, transformation and media.
- c. Developing language.
- d. Increasing the critical attitude about literary studies.
- e. Imbuing the literary research attitude.

#### Course Outcomes - B.A. HISTORY AND ARCHAEOLOGY

- a. Understand the basic themes, concepts, chronology and the Scoop of Indian History.
- b. Be Acquaint with the range of issues related Indian History and its distinctive eras.
- c. Understand the history of the countries other than India with comparative approach.
- d. Think and argue historically and critically in writing and discussion.
- e. Prepare for various types of Competitive Examinations.
- f. Critically recognize the Social, Political, Economic and Cultural aspects of History.
- g. To study further in the applied field of history as archaeology.

#### Course Outcomes - B.A. ECONOMICS

- a. Understanding how different degrees of competition in a market affect pricing and output.
- b. Understanding the efficiency and equity implications of market interference, including government policy.
- c. Developing research knowledge in economics.
- d. Developing the skill of data collection & use of sampling techniques in research.
- e. Developing the knowledge about theories of economic growth & development and issues of economic planning.
- f. Creating awareness about changing macro-economic policies and theories.

#### Course Outcomes - B.A. SOCIOLOGY

- a. Acquaintance with social transactions, social relations, social formations, social control, social values and culture.
- b. Knowing the significance of social institution, caste system, religion, nationalism, integrity, equality and justice.
- c. Getting the knowledge of the works of social reformers all over the nation.
- d. Ability to follow new stream of thoughts and theories of social thinkers.
- e. Getting the deep knowledge about various social groups like tribal community, women bulk etc.
- f. Ability to deal with research in sociology.

#### Course Outcomes - B.A. POLITICAL SCIENCE

- a. Knowledge about political system of the nation.
- b. Study of national and international political affairs.
- c. Study from competitive examination point of view.
- d. Understanding the government mechanism, its functions, duties and responsibilities.
- e. Creating appropriate and efficient political leaders.
- f. Getting knowledge of political law.
- g. Getting knowledge of Constitution of India.

#### Programme Outcomes - B.B.A

##### PROGRAMME OUTCOMES:

Upon graduation, students will be able to:

Exhibit understanding of broad business concepts and principles.

A To identify and define problems and opportunities

B. Demonstrate the ability to identify a business problem, isolate its key components, analyze and assess the salient issues, set appropriate criteria for decision making, and draw appropriate conclusions and implications for proposed solutions.

C. Demonstrate the capabilities required to apply cross-functional business knowledge and technologies in solving real-world business problems.

D. Demonstrate use of appropriate techniques to effectively manage business challenges.

E. Capable of recognizing and resolving ethical issues.

F. Effectively communicate business issues, management concepts, plans and decisions both in oral and written form using appropriate supportive technologies.

G. Blend analytical, logical and managerial skills with the technical aspects to resolve real world issues.

H. Become employable in various IT companies and government jobs.

• **PROGRAMME SPECIFIC OUTCOMES:**

BBA programme has been designed to prepare graduates for attaining the following specific outcomes:

**Critical Thinking Skills:** Students are able to define, analyze, and devise solutions for structured and unstructured business problems and issues using cohesive and logical reasoning patterns for evaluating information, materials, and data.

**Communication Skills:** Students are able to conceptualize a complex issue into a coherent written statement and oral presentation.

**Technology Skills:** Students are competent in the uses of technology in modern organizational operations. **Entrepreneurship and Innovation:** Students can demonstrate the fundamentals of creating and managing innovation, new business development, and high-growth potential entities.

**Business Knowledge:** Students can demonstrate technical competence in domestic and global business through the study of major disciplines within the fields of business.

**Programme Outcomes - B.C.A**

**Course Outcome:**

- 1) Students will able to recognize & appreciate the role of computing in a wide variety of activities & application of Modern society, including commerce, education, communication.
- 2) Analyze a given problem and develop an algorithm to solve the problem.
- 3) Demonstrate the basic technicalities of creating word document, creating power point presentation, design spreadsheet for office use
- 4) Develop the software projects by understanding the client requirement.
- 5) Define fundamental account concept, conventions & terminologies.
- 6) Implement the various programming languages like C, C++, VB. Net, Java Construct in the right way.
- 7) Able to master the basic concept and understand the database management system.
- 8) Evaluate and analyze the SDLC, understand software design, coding techniques and software testing principle.

**Program Outcomes:**

- 1) **Engineering Knowledge:** Apply the knowledge of mathematics, science, engineering fundamentals to the solution of complex engineering problems.
- 2) **Problem Analysis:** identify, formulate, review and analyze complex problems using various techniques.
- 3) **Design/Development of solutions:** Design solutions for complex problem and design the system components or processes that meet the specific needs.
- 4) **Conduct Investigation of complex problems:** Using various investigation techniques he can investigate large and complex problems.

- 5) Modern Tool Usage: create, select and apply appropriate techniques, resources and modern IT tools.
- 6) Communication: Communicate effectively on complex activities and with the society at large and write effective documentation, make effective presentation and give and receive clear instructions.
- 7) Individual and team work: Function effectively as an individual, and as a member or leader or project manager in project team.
- 8) Project Management: Effectively manage project work according to time scheduling, cost scheduling and also satisfy customer needs.
- 9) Lifelong learning: Recognize the needs for, and have the preparation and ability to engage in independent and lifelong learning.

**Program Specific Outcomes:**

- 1) Students will able to understand, analyze and develop computer programs in the areas related to algorithm, system software, web design and networking for efficient design of computer based system.
- 2) Apply standard software engineering practices and strategies in software project development using open source programming environment to deliver a quality of product for business success.
- 3) Student will able to know various issues, latest trends in technology development and thereby innovate new ideas and solutions to existing problems.

**PROGRAMME - BACHELOR OF SCIENCE (B.Sc.)**

**Program Outcomes**

Students taking admission to this program of B.Sc. are expected to get equipped with following outcomes:

- a. Explaining the basic scientific principles and methods .
- b. Inculcating scientific thinking and awareness among the student.
- c. Ability to communicate with others in regional language and in English.
- d. Ability to handle the unexpected situation by critically analyzing the problem. e. Understanding the issues related to nature and environmental contexts and sustainable development.

#### Course Outcomes - B. Sc. Chemistry

- a. Creating interest in environmental issue.
- b. Increasing working knowledge of instruments.
- c. Obtaining the knowledge of pharmaceutical tables
- d. Social awareness about the quality of water.
- e. Increasing the practical skill of the students
- f. Awareness about plastic garbage.

#### Course Outcomes - - B. Sc. BIOTECH

- a. Understanding about cultivating the pure bacterial cultures from soil, water, air, milk, etc. b. Ability to use laboratory instruments like spectrophotometer, colorimeter, LAF, PH meter.

Electrophoresis, Compound microscope, Centrifuge.

- c. Preparing for a career in a pharmacy and medical related business or industries.
- d. Ability to plan the small-to-mid-size laboratories and industries of their own.
- e. Effectively utilizing the knowledge of microorganisms to develop sustainable solutions to current and future environmental problems.
- f. Developing and implementing solution based systems and/or processes that address issues and or improve existing systems within in a microorganism based industries.

#### Course Outcomes - - B. Sc. Computer Science

- a. Effectively communicating computing concepts and solutions to bridge the gap between computing industry experts and business leaders to create and initiate innovation.
- b. Ability to use approximately system design notations and apply system design engineering process in order to design, plan and implement software systems.

- e. Preparing for a career in an information technology oriented business or industry or for graduate study in computer science or other scientific or technical fields.
- d. Ability to complete successfully to program small –to-mid-size programs on their own.
- e. Effectively utilizing the knowledge of computing principles and mathematics theory to develop sustainable solutions to current and future computing problems.
- f. Developing and implementing solution based system and/or process that address issues and or improve existing systems within a computing based industry.

#### Course Outcomes -B. Sc. Mathematics

- a. Ability to calculate and reason to design complex and critical financial models for Bank and Insurance Companies.
- b. Ability to understand both concrete and abstract problems.
- c. Ability to make critical observations.
- d. Ability to accurately organize, analyze and interpret data.
- e. Develop the mathematical logic which is very useful for solving mathematical reasoning problems.

#### Course Outcomes - B. Sc. STATISTICS

- a. Application of statistics in various walks of life.
- b. Ability to apply various statistical tools to research problem.
- c. Understanding how to collect, present, analyze and interpret the data.
- d. Ability to analyze the data by using MS-Excel.
- e. Knowing the statistical organization in India and Abroad.
- f. Ability to build statistical knowledge.
- g. Application of various distributions to real life situation.

#### Course Outcomes - B. Sc. Physics

- a. Identifying and describing physical systems with their professional knowledge.
- b. Developing their scientific intuition, ability and techniques to tackle problems either theoretical or experimental in nature.
- c. Knowledge of general physics like sound, wave, friction, forces and laws of motion and use of mathematics.
- d. Information of electrical current, circuits, construction and their use.
- e. Learning about concepts of nuclear physics and nuclear energies and importance of their use for mankind.
- f. Knowing about the light and its importance in life, its characteristics, properties and use in various instruments

#### Course Outcomes - B. Sc. BOTANY

- a. Identifying different resources helpful for human life.
- b. Identifying different groups of plants
- c. Acquiring knowledge about inheritance, biochemical and metabolic activities.
- d. Development of horticultural skill.
- e. Acquiring knowledge about importance of environment.

#### Course Outcomes - B. Sc. ZOOLOGY

- a. Improving the knowledge about criteria for animal classification.
- b. Study of salient features of chordates and non-chordates.
- c. Improving the knowledge of animals about their special adaptations and evolutionary relationship.
- d. Scientific study of their nature of habitat with environment.
- e. Improving information about external morphology and anatomy of animals including human being.

#### BACHELOR OF COMMERCE (B.COM)

##### Program Outcomes

Students who have taken admission to this program of B.Com are expected to concentrate upon the following outcomes.

- a. Commercial sense.
- b. Develop managerial skills.
- c. Entrepreneurial skill.
- d. Budgeting policy.
- e. Human Resources Management.
- f. Develop Numerical ability.
- i. Well versed with business regularity framework.

## P.G. PROGRAMME OUTCOME

### PROGRAMME – Master of Science (M.Sc.)

MSc degree program translates to making a significant investment in one's professional career.

- a) To the enhanced career prospects that can be gained by taking a Master of Science.
- b) Valuable personal skills and fulfil a crucial prerequisite to PhD study.
- c) Candidates normally have to do independent research and present a thesis as requirement for graduation.
- d) d) An understanding of professional, ethical, legal, security and social issues and responsibilities.

### Master of Arts (M.A.)

- a. The students acquire in depth knowledge in the field of social sciences, literature and humanities which make them sensitive and sensible enough to solve the issues related with mankind.
- b. The postgraduates will be acquainted with the social, economical, historical, geographical, political, ideological and philosophical tradition and thinking of their respective subjects.
- c. The program also empowers the post-graduates to appear for various competitive examinations or choose the any post graduate or research programme of their choice.
- d. The M. A. program enables the students to acquire the knowledge with human values framing the base to deal with various problems in life with courage and humanity.
- e. The students will be ignited enough through the knowledge of the special PG programme to think and act over for the solution of various issues prevailed in the human life to make this world better than ever.
- f. Through the PG programme the students will come know about research in their respective subject. It may also provide the information to the students for collection of Data, enquiry, primary and secondary methods of collection of data, classification and tabulation of data.
- g. Students get knowledge of various research methods and can realize the importance of research to find solutions of a specific issue.

## **Program Outcomes : M.A HISTORY AND ARCHAEOLOGY**

### **Programme outcomes**

- A. Students should understand academic honesty, a concept presented to them in all history classes.
- B. Students should understand skills that historians use in research.
- C. Students should understand the skills that historians use in writing.
- D. Students should understand historiography.
- E. Students should understand the value of diversity.

### **Programme Specific Outcomes**

- 1. Each MA student will demonstrate in all research papers, including the thesis (Plan I), ethical use of sources and accurate and properly formatted citations.
- 2.. Each MA student will demonstrate in all research papers, including the thesis, the abilities: to use primary and secondary sources appropriately; to identify and evaluate evidence; and to identify all relevant archival sources for a particular project.
- 3. Each MA student will demonstrate in all research papers the abilities to use primary and secondary sources appropriately and to identify and evaluate evidence. (Plan II)
- 4.. Each MA student will demonstrate in her/his thesis the ability to formulate a clear argument, support the argument with appropriate and thorough primary evidence, and reach a convincing conclusion.
- 5. Each MA student will demonstrate in all research papers the ability to formulate a clear argument, support the argument with appropriate and thorough evidence, and reach a convincing conclusion.
- 6. Each MA student will demonstrate in the required Advanced Historiography course the ability to recognize and apply the fundamental paradigms, analytical models, and theories of causation that are used in the discipline
- 7. Each MA student will demonstrate in research topic choices and resulting written work the ability to recognize and articulate the diversity of human experience, including ethnicity, race, language, sex, gender, as well as political, economic, social, and cultural structures over time and space.

#### **Program Outcomes : M.A POLITICAL SCIENCE**

- 1 - Understanding the nature and developments in national and international politics
- 2 - Analysing the Indian constitutional provisions, major legislations and reforms
- 3- Critical evaluation of social, economic and political variables for a proper understanding of the plurality of Indian society
- 4 -Building overall consciousness regarding national political history, international relations and present Indian and Western political thinkers.
- 5 - Encouraging a comprehensive, comparative understanding of specific world constitutions such as UK, USA, China, Russia, Switzerland and France.
- 6 - Developing knowledge of administrative studies with special reference to Indian administrative structures and practices.
- 7 - Examining India's foreign relations with her neighbours and great powers.
- 8-Use of case study method for analysing the working of important international and regional organisations like UN, EU, ASEAN etc

#### **Master of Commerce ( M.Com.)**

The post graduate program provides the students advanced knowledge in the field of business and management and also enables the students to acquire the basic skills required for carrying out business activities, research, stock market operations, accounting practices, etc. The program also provides them with adequate knowledge and skill to provide consultancy services in finance and marketing. Similarly after completion of the program students can confidently prepare for NET, SET, and other competitive examinations of their choice.

- a. To understand the concepts of co-operation and co-operative movements
- b. To acquire the knowledge about market, marketing information system and transportation in 21st century
- c. To learn the basic management concepts and process
- d. To acquire the knowledge about the modern trends in the management
- e. To apply the techniques of micro and macro-economics for decision making in job/business

- f. To understand the concepts and procedures in cost accounting system and make use of expert knowledge of costing data for decision making and control
- g. To acquire research skills

## CERTIFICATE COURSE IN YOGA

### Course Outcomes

- a. To impart basic, classical and scientific knowledge about Yogasana, its foundations and applications to the aspirants.
- b. To make the people aware of the fundamentals of Yogasana for wellness in their daily life.
- c. To develop healthy lifestyle of an individual through the practice of Yogasana
- d. To promote positive health and spiritual evolution of individuals by the practice of Yogasanas.
- e. To help for the development of personality of learners at all levels.
- f. To make aware of the utility of Yogasanas in disease prevention and promotion of health.
